Luxury, quality and excellent location. These three aspects are united in this recently built three-storey villa located in the municipality of Jesus, 400 meters from the beach of Talamanca and 2 kilometers from the center of Ibiza. Álvaro González de la Fuente, of IBIZARQUITECTUR, has been the architect in charge of designing this house of 348 square meters and 471 square meters of land. De la Fuente has also worked on other major projects on the island such as the Hotel Destino Pacha Ibiza Resort. With a unique and avant-garde design, this luxurious house with minimalist style consists of 4 suites with bathroom, living room, kitchen, swimming pool and two terraces (one of them at the top of the house and another on the ground floor next to the pool) . The house is fully equipped for use and enjoyment and has a jacuzzi, whirlpool, barbecue, integrated speakers in all rooms, perimeter alarm and interior security cameras and communication center with the alarm center. In addition, an elevator offers the possibility to visit each and every one of the floors. For its construction, high quality materials such as Corian (kitchen countertop and showers) or Hans Grohe (taps) have been used. In terms of lighting, highlight that it is Led and offers the possibility of changing the color both inside and outside of the house, which allows to adapt the light to different environments and tastes. To take advantage of the hours of natural light, the villa has been provided with large windows that also allow you to see the magnificent views of the beach of Talamanca and Dalt Vila, the medieval area of Ibiza.
